

# Graphic Designer

## Electric Six

She's a nine-to-fiver  
Got evil up inside her  
She's a  
She's a graphic designer Nobody does it finer  
Photoshopping tiger  
Simplification messiah Cropping suicidal  
Pantone 2909  
She's even redesigning in China Taking bullshit higher  
Running something by her  
She's a  
She's a graphic designer She knows  
Her designs on me are graphic  
When she goes  
Into work early to avoid traffic  
And she don't need applause  
And she don't need prat  
And she don't need your feedback to know where it's at  
And she don't need no resume to get through my door  
Better bring your A-game when you wage your war  
On designer  
De-signer  
She's a nine-to-fiver  
Got evil up inside her  
She's a  
She's a graphic designer  
Taking your shit higher  
Running something by her  
She's a  
She's a graphic designer Graphic designer [One very long instrumental section] And she don't need applause  
And she don't need prat  
And she don't need your feedback to know where it's at  
And she don't need no resume to get through my door  
Better bring your A-game when you wage your war  
On designer  
De-signer
