

Me and My Girl

Theory of a Deadman

Feeling that I get, ooh
Come right back to you
Cant tell me that I dont know
Cause I doBaby everything I do now
Is a reflection of your smile
I wouldnt trade it for the world, no noBaby
When I think about you girl
Its been one night
Already missing you girlStill remember the first time
When we hooked up, I knew you were mine
From the way that you looked in my eyes
I knew right then I was bound to ride with youEver since you were there for me
No other love can have the key to my heart
By your side is where Ill be
I couldnt go even if I wanted to leaveThe feelings that I get, oh
Comes right back to you
Cant tell me that I dont know
Because I doBaby everything I do now
Is a reflection of your smile
I wouldnt trade it for the world
Just me and my girlThe player game goes round in a circle
Just the same old game from the beginning
Gotta keep my head on my shoulder
I got ya girl, you know who with itHow many people you know can say
That their relationship is winded
But I got the same old chick that I been withGirl, right from the start, yes it was
You embraced my heart, yes you did
I said some relationships are winded
But I got the same chick I been with, yeahThe feelings that I get, oh
Comes right back to you
Cant tell me that I dont know
Because I doBaby everything I do now
Is a reflection of your smile
I wouldnt trade it for the world
Just me and my girlBabys a rider and Im right beside her
My babys a roller and Im gonna show ya
I need you, I love you, the words aint enough to
Explain but I want to make [incomprehensible]Girl you know you lift me up
When Im feeling real low

You hold me tight in your arms
To roll me up when its cold You are what Im blessed with
Angel from the heavens
Baby Im attached
And I dont plan on going back The feelings that I get, oh
Comes right back to you
Cant tell me that I dont know
Because I do Baby everything I do now
Is a reflection of your smile
I wouldnt trade it for the world
Just me and my girl The feelings that I get, oh
Comes right back to you
Cant tell me that I dont know
Because I do And baby everything I do now
Is a reflection of your smile
I wouldnt trade it for the world
Just me and my girl Me and my girl
Me and my girl
Me and my girl
