Toby

Against All Authority

Advisory - the following lyrics contain explicit language:

Toby was a friend of mine I met him back in school There was nothing else for us to do We got ourselves in and out of trouble every fuckin'day We had a bottle of liquor and a skate board ramp Not a day goes by that I don't see his eyes We had C.S.I. and outdoor suspensions for all the games that we would play Sometimes I feel like it's my fault Why did he die? Why did he die? Why did he die? I'll never understand the choice that Toby made To see him when school let in Summer rolled around, I spent my nights getting drunk and staying out late Toby lived on the other side of town I didn't see him all summer so I couldn't wait Suicide I could believe what my friend said Toby's dead Their words still echo in my head
