

# Contention

[MxPx](#)

This is a fight, broken bottles, bloody walls  
There was a time, when a fist could solve it out  
But those days are gone along with many murdered livesHey, contention  
Hey, it's killing usThis is a war, complete with a body count  
This ain't the past, this ain't the future, this is now  
When will we stand up and refuse to be put down?Hey, contention  
Hey, it's killing usHey, contention  
Hey, it's killing us
