

# Under the Waterfall

## Republic of Two

Swimming in the oceans full of cars  
it's way we are, way we are  
We don't even know how we got this far  
it's who we are, who we are  
Now that all the blue skies turned to black  
cause she ain't coming back  
and I don't even want to know her name  
cause it always turns the same  
Just standing in the winter sun  
cause you can never turn me on

Dancing with the trees at night  
cause you can never get me right  
Sleep under the waterfall  
cause I don't wanna hear you go  
Listen to my beating heart  
cause this is just the way we are

I don't wanna hear the noise of a crowd  
lonely hearts the way we are  
On those empty streets they sound so loud  
there's no charms, she is not around  
Feeling like a stone thrown to her lake  
with no rhymes that it should make  
Suddenly I feel her helping hand  
she pretends to understand  
Staring in the winter sun  
cause you can never turn me on

Dancing with the trees at night  
cause you can never get me right  
Sleep under the waterfall  
cause I don't wanna hear you go  
Listen to my beating heart  
cause this is just the way we are
