

# The Long Walk Home

Glen Campbell

Some familiar place I've never been before  
This is a long walk home  
A beautiful feeling like I've never known  
This is a long walk home I know I'll never be the same again  
I hope I'll still remember you  
Above it all I know our love will transcend  
On my long walk home No more places that I need to be  
This is the long walk home  
No more people tryin' to get at me  
This is the long walk home Whatever will be will be my friend  
No more fences on that line to mend  
It's the only debt I've never paid that I owed  
This is the long walk home  
This is the long walk home
