

Without U

Jesse McCartney

I like when you whisper softly
Things only I should hear
That lead me on
Go on I like the way you smile at me
Make me feel like nothin'
Can go wrong
Go on Tell me this will last forever
Don't you ever leave I don't wanna be without you
Dream without you
Walk without you
Talk without you, baby
I never take a chance without you
Dance without you
Nothing is the same without you, baby
And I could never deal without you
Heal without you
Begin without you
End without you
Baby, I'm in need
I can't breathe
No, I don't wanna be
Without you I love when your eyes wash over me
With a look only I can tell
Whats on your mind
Go on I love the way that you find me
Whenever I've lost my way
You're just in time
Hey hey hey yeah Baby we've got something started
Say we'll never stop I don't wanna be without you
Dream without you
Walk without you
Talk without you, baby
I never take a chance without you
Dance without you
Nothing is the same without you, baby
And I could never deal without you
Heal without you
Begin without you
End without you

Baby, I'm in need
I can't breathe
No, I don't wanna be
Without you I'll lock up my heart
And throw away the key
If that's what it takes
To keep you with me You open the door
To all that's good in me
I can't deny the truth
That I could never be without you I don't wanna be without you
Dream without you
Walk without you
Talk without you, baby
I never take a chance without you
Dance without you
Nothing is the same without you, baby
And I could never deal without you
Heal without you
Begin without you
End without you
Baby, I'm in need
I can't breathe
No, I don't wanna be
Baby, I'm in need
I can't breathe
No, I don't wanna be
Without you
