

Sober Me Up

Frankie Ballard

This crazy life can mess you up
It's like a bottle of wine
Too much can get you drunk and cloud up your mind
Chasin' all these dreams down can sure keep ya stoned
Lately I've been stumblin' round, been out of control
Well I been runnin' low and lovin' high on livin'
And baby I need you to come and stop the room from spinnin' Sober me up, and bring me back down
Help set my feet on solid ground
Settle my soul with just one touch
Clear my head, baby let your sweet love sober me up Well I can get carried away, I can take things too far
Try to find myself an easy fix with band-aids on scars
I need to snap out of this state that I'm in,
Remember what matters and think straight again
But baby when you kiss me all the demons seem to disappear
And girl it's scarin' me to think where I'd be without you here Sober me up, and bring me back down
Help set my feet on solid ground
Settle my soul with just one touch
Clear my head, baby let your sweet love sober me up baby
