

Worth It All

Michael W. Smith

Sometimes I wonder what its like
To be living life on the other side Oh, please dont make me feel
Like I dont know, whats out there
Proof is written in the sky Hey, wont you listen to me now?
It makes no difference
If I wish upon a star The only absolute is
That the word of life
Is written on my heart Oh, I believe
Yes, I believe Hey, look at me, living life for you
When its good, when its hard
You know me, you know my heart Yeah, yeah, yeah, I give up
Anything at all, when you call
All I know its worth it all I know youre scared
To let me know you
Oh, I know you got a heavy kind of soul And I know its harder to believe
In love when youre
Feeling all alone And theyre taking bets
On who the lover of your soul
And your heart is gonna be But theyre taking on all the things
That get you down and out
The moment you believe I believe in you
Yes, I
I said I believe in you Hey, look at me, living life for you
When its good, when its hard
You know me, you know my heart Yeah, yeah, yeah, I give up
Anything at all, when you call
All I know its worth it all All I know its worth it all
All I know its worth it all Anything, anything at all, when you call
All I know is its worth it all Anything, anything at all, when you call
All I know is its worth it all Yes, I believe in, I believe in you
Yes, I believe Hey, look at me, living life for you
When its good, when its hard
You know me, you know my heart Yeah, yeah, yeah, I give up
Anything at all, when you call
All I know its worth it all Hey, look at me, living life for you
When its good, when its hard
You know me, you know my heart Yeah, yeah, yeah, I give up
Anything at all, when you call
All I know its worth it all When its good, when its hard

You know me, you know my heart Yeah, yeah, yeah, I give up
Anything at all, when you call
All I know its worth it all
