## You Got Yr. Cherry Bomb

## **Spoon**

Life could be so fair, let it go on and on
I can push for good and you got that cherry bombBlow out that cherry bomb for me
We lost it long ago, you and meNow you know your way back from the spirit far
Brush your teeth for bed, blow out that cherry bombBlow out that cherry bomb for me
You got to know it's on your sleeve

Know it's on your sleeve

Well, know it's on your sleeveIt was the longest day that I've ever known
I watched you start that drive aloneBlow out that cherry bomb for me
It's gonna burn right up your sleeve
Burn right up your sleeveSo there you go again
Out in your dressing gown
Get yourself to bed

Blow out that cherry bombOh, life could be so fair, let it go on and on I could pay the man, [Incomprehensible] you cherry bomb Oh, life could be so fair, let it go on and on I could pay the man, [Incomprehensible] you cherry bomb
