## Marsicans

Don't tell anyone  
Don't tell anyone  
Don't tell anyoneWe share a joke in the  
Well fine, know how to make you laugh  
    No hang ups between us  
    Not like the other girls and love  
        You're different, confident  
        Our secret's safe with me  
        Red lipstick on my cheek  
Your love must last all week, girlI can't tell, can't tell, can't tell anyone  
    What we've got going on  
    Don't tell, don't tell, don't tell anyone  
        What we've got going on  
        Hold hands, got plans  
        Don't tell anyone  
        What we've got going on  
Can't tell, can't tell, can't tell anyoneDon't tell anyone  
    Don't tell anyone  
Don't tell anyoneOur love is what others could never come to understand  
    But we like clothes, your heart beats slow  
        And I can hear it with my hand  
        We love it, if I ever  
    Ever caught your legs wrapped around me  
        Tear you from out my arms  
And we'd be history, girlCan't tell, can't tell, can't tell anyone  
    What we've got going on  
    Don't tell, don't tell, don't tell anyone  
        What we've got going on  
        Hold hands, got plans,  
        Don't tell anyone  
        What we've got going on  
Can't tell, can't tell, don't tell anyoneDon't let them see us holding hands  
    Our love's one thing they'll never understandDon't let them see us holding hands  
    Cos our love's one thing they'll never understandCan't tell, can't tell, can't tell anyone  
        What we've got going on  
        Don't tell, don't tell, don't tell anyone  
            What we've got going on  
            Hold hands, got plans,  
            Don't tell anyone

What we've got going on  
Can't tell, can't tell, can't tell anyone  
Don't tell anyone  
Don't tell anyone  
Don't tell anyone  
Don't tell anyone
