

I Am Fire

The Afghan Whigs

I'm the chosen one
I'm the setting sun
Hottest car on the block
Faster than you'll take me
Picture where I've been
Underneath
Within
I could love you
I could steal your light
Day conjoined with night
And I could hide away
I'd see you thru
I'd see you thru
Take me there
If you're coming
What to wear, where you goin?
What would you like for me to know?
And would you die to tell me so?
You said recovery is slim
I could complicate it
I could recreate it
My only cover was a con
I succinctly
Distinctly
Completely knew
And this is where it's gone
And this is why we came
As long as we're apart
The game is not the same
I see you
Eternal
I'm burning
Encircled
Day conjoined with night
And I could hide away
