

# Where Do We Go from Here???

## Death

All you timeless children  
show predictions and flashbacks  
Tryin', to get ahead  
What makes you think I can see you  
what makes you think I believe you  
Dreams, beside my bed(?)Have you heard the news lately?  
Shot, has come to pass  
All the dreams were flying  
All the? dying  
Hurt, is coming fast  
All you false pretenders  
And you freaky contenders  
Trying, to be the first  
In my own opinion  
You are not defending  
You, you are the worstMade the world a circus  
And you're trying to curse us  
Cruel, he knows no bounds  
But we won't let you beat us  
No, we won't let you cheat us  
It's only one time aroundHa. Ha.  
Ha. Ha.  
If you find it amusing  
And the world in the music  
Take a closer look  
If you found what you're missing  
In the dreams that you're wishing  
It's all, the time you took
