

# Stay On The Ground

## Armor for Sleep

I started looking out for myself today  
But then I stopped cause I don't care  
I'm feeling bored of feeling numb  
So now I'll stop cause I don't care I started looking out for myself today  
But then I stopped cause I don't care  
I'm feeling bored of feeling numb  
So now I'll stop cause I don't care So get it get it get it right  
I'm not holding on to a thing here  
Get it get it get it right  
I'm not holding on and can't say no Holding your head up  
Is hard when you just want  
To stay on the ground  
To stay on the ground Holding your head up  
Is hard when you just want  
To stay on the ground  
To stay on the ground I started feeling bad for myself today  
But then I stopped cause I don't care  
I'm dreaming less and sleeping more  
But I sold my soul for the dream you stole So get it get it get it right  
I'm not holding on to a thing here  
Get it get it get it right  
I'm not holding on and can't say no Holding your head up  
Is hard when you just want  
To stay on the ground  
To stay on the ground Holding your head up  
Is hard when you just want  
To stay on the ground  
To stay on the ground Of my fifty years left I'm just waiting around  
Put your heart on your sleeve I won't speak pull it down  
Of my fifty years left I'm just waiting around  
Put your heart on your sleeve I won't speak pull it down Holding your head up  
Is hard when you just want  
To stay on the ground  
To stay on the ground Holding your head up  
Is hard when you just want  
To stay on the ground  
To stay on the ground
