Left Right

Inna

Can you hear me? I call your name twice
Can you feel me? I treat you so nice
When you're not here, I feel it's getting cold
Come around me and you will see my worldMove with me to the left and then move it, move it
Move with me to the right

Move with me to the left and then move it, move it

Move with me to the rightJust dance, just dance, just dance, just dance, just dance sexy

So sexyMove with me to the left and then move it, move it

Move with me to the right

Move with me to the left and then move it, move it

Move with me to the rightJust dance, just dance, just dance, just danceSo sexyMove with me to the left and then move it, move it

Move with me to the right

Move with me to the left and then move it, move it

Move with me to the rightJust dance, just dance, just dance, just dance

Just dance, just dance, just dance
