Leave Me Now

Blizzard

Yo this is Brad,
You're through to my answer machine,
Leave your name and number after the tone
and I'll get back to you as soon as possible, cheers.Hi Brad,
I guess you're busy.. Again.
Look I think we should just call it quits.
It's not working out and,
I think it's just better that we end it okay?
No need to call me back,
Take care.The sky turns from blue to a monochrome.
You left me stranded when I needed you and now I'm on my own.
It's like I need a place to go and haven't got a home.
It's funny you say you would support me when we was on the phone.
You can't understand the life that I'm living.
Can't understand that I've prioritized my ambition.
It all seems to change when I leave for the road
but you can never disregard the feelings I showed.
I can't work you out, or just believe what I'm told.
This is too much stress, I need to be released from you hold.
I don't wanna be controlled or manipulated but I can understand that you must be a bit frustrated.
Our moods changed and some arguments were instigated,
now I'm feeling off beat and acting so syncopated.
So if you leave me, I guess that I'll see you around, 'cus I refuse to let you take my feet off the ground.[CHORUS]
Are you gonna leave me now?
Just when heaven was waiting.
Are you gonna leave me now?
With no conversation.
Are you gonna leave me now?
Sweared you'd always be down,
but you're leaving me now..(Look I think we should just call it quits)So, what's the plan now? Where do we go from here?
Fade to the background, maybe I won't appear.
I won't come back round, next time I won't be here.
I'll be puttin' raps down in studio going clear.
I'm not at home often.. People want to challenge that but I won't stop them.
'Cus I've got no option.
I've said before that I was tired of this feeling.
Disagreements of this kind are unappealing.

Next thing I know, you're gone without an explanation
and it's taught me something I didn't learn in education.
I need to prioritize my job over recreation.
My situation is a perfect demonstration.
I'm here to work, not to feel like I'm worthless.
What do you want from me? What's your purpose?
You've left me now and you'll regret it later when all of your old feelings start to rise to the surface.[CHORUS]
Are you gonna leave me now?
Just when heaven was waiting.
Are you gonna leave me now?
With no conversation.
Are you gonna leave me now?
Sweared you'd always be down,
but you're leaving me now..And just when I needed you the most.
You disappeared out my life like a ghost.
I hope you know that my main priority is you.
So if you stay with me and work this out we're gonna see it though.
You left me a voicemail it hurt me beyond belief!
I thought we was all good and there wouldn't be any beef.
Surely you can understand how I feel somehow.
It's only gonna hurt us both if you leave me now, so.[CHORUS]
Are you gonna leave me now?
Just when heaven was waiting.
Are you gonna leave me now?
With no conversation.
Are you gonna leave me now?
Sweared you'd always be down,
but you're leaving me now..(Look I think we should just call it quits)Are you gonna leave me now?
Just when heaven was waiting.
Are you gonna leave me now?
With no conversation.
Are you gonna leave me now?
Sweared you'd always be down,
but you're leaving me now..
