

# Out the Way (feat. G-Eazy & Gusto)

Vell

Thats Bae and thats crazy that she came from the Bay  
So we getting green then we getting out the way  
First we had to get these weak niggas out the way  
Now we getting money everywhere, out the way  
Out the way, out the way, out the way  
Same grind, same goal different day  
If you got them packs you better ship them out the way  
Out the way, getting paid everyday Out the way, on my way to the bank  
Go hard on the grind everyday  
Smoking good cookie, yeah yeah, I got a bakery  
And I wish a nigga would try to take from me  
(What!)  
And my bitch looking Meagan good  
Little baby for the hood, fuck me like you should  
Do me like you could, we going to have to run it up  
All them niggas she was fucking with can't fuck with us  
I'm from the Oaktown  
She gon' hold it down cause a nigga hold the crown  
All this weight baby, tell me can you hold the pounds  
You can't run that mouth less I tell you run that mouth  
Thats Bae and thats crazy that she came from the Bay  
So we getting green then we getting out the way  
First we had to get these weak niggas out the way  
Now we getting money everywhere, out the way  
Out the way, out the way, out the way  
Same grind, same goal different day  
If you got them packs you better ship them out the way  
Out the way, getting paid everyday Eazy, yeah  
If you a hater get the fuck in front of me  
Rappers need a favor, I need money nothings free  
Unless your name is Vell, I don't even charge a fee  
Being real isn't really that hard to be  
I made it and I stayed true  
See my DNA, yeah that's how the bay do  
And I paid dues  
People use to tell me stay the same you  
Always remember where you're from and stay true  
This the least I could do  
Make it to the top everybody starts watching you

They gon' try copying you  
But you do it worse  
Repping every time I do a verse  
Bay to the universe  
Thats Bae and thats crazy that she came from the Bay  
So we getting green then we getting out the way  
First we had to get these weak niggas out the way  
Now we getting money everywhere, out the way  
Out the way, out the way, out the way  
Same grind, same goal different day  
If you got them packs you better ship them out the way  
Out the way, getting paid everyday
