## Mona

## **Waylon Jennings**

I can give you golden tinkling bells To even dangle through your long black hair I can give you magic satin slippers Woven just to take you anywhere. I can give you all the love and tenderness A broken heart can spare Mona take the love I give Don't ask for love I gave away back there You could take the hand of any man And show him how to dream Why do you look back into my dark And bitter past, can't you see? Mona when you found me All I had was sad and broken dreams Mona please be satisfied walking Through tomorrow here with meI can give you golden tinkling bells To even dangle through your long black hair I can give you magic satin slippers Woven just to take you anywhereMona take the love I give Don't ask for love I gave away back there
