It's Alright

Third Day

Your letter said that you were leaving
But you didn't know how long
And I have never stopped believing
That one day you would return
And though the waiting is the hardest
Part of everything I do
I do confess it's getting better
Knowing I will be with you
And it's alright, it's okay
And I won't worry about tomorrow
For it brings me one more day
Closer than I was to you
Closer than I was to you
Yeah, yeah, yeah
And now the question isn't will you
But what I want to know is when
And if it's one day or a million
I will wait for you till then
So I'm holding on to your words
And the promises that you've made
And there is not one you have broken
There's not one I didn't take
It's alright, it's okay
And I won't worry about tomorrow
For it brings me one more day
Closer than I was to you
Your letter said that you were leaving
But you didn't know how long
And I will never stop believing
I know one day you will return
Well it's alright, it's okay
And I won't worry about tomorrow
For it brings me one more day
It's alright, it's okay
Well I won't worry about tomorrow
For it brings me one more day
Closer than I was to you
Closer than I was to you
Closer than I was to you

Yeah, yeah, yeah
For it brings me one more day
