

# Don't Go

## Calvin Richardson

Advisory - the following lyrics contain explicit language:

I love this song. I listened to it and wrote down the words. I might have a few incorrect. However, sing along with it and make changes as needed. Good luck!

Dont Go

Calvin Richardson

(Speaking)

In the mist of the pouring rain

All malekeum misfits of the atmosphere are purified

Like all the hurt and pains of life strains

Are removed from the body of a beautiful woman

Through every tear held back that she dont cry

Your eyes like heavens windowpane

With the strength of an athlete

With a touch so gently

Brought mighty mighty Hercules to his knees

God told Adams no

Eve made him say; yes, yes

Her smell so sweet

Her body waves so unique

Makes a man complete

Surely Ill eat for just one more taste of your nectar

Please dont leave

Verse

Whats the problem now girl

Thought you said youd be with me from now

Through thick and thin

And I took your word girl

Are you contemplating leaving me (say no) aah no

Your love is like the petals of a rose (dont go)

Insecurities get the hell away from me (yea, yeah) pleaseeeee (dont go)

Chorus

I just wanna praise you

Let me take you to Jamaica girl (dont go) just dont go

I hope these feelings are contagious  
Thank God everyday he made you girl (just dont go)  
My world would be incomplete babe  
If he took you from me baby (dont go)  
No, no, nooo (umm hum)

Verse

Ill do anything to see you smile (ooh ooh)  
Sunday morning Ill be  
Making silly faces up in church  
Till the preacher kicks me out (just to see you smile)  
Guess what Im trying to say is  
Ill be a clown (woo huh)  
So you dont ever have to think about our love  
Baby you can trust  
When everything around us falls down  
Standing it is us  
Still love (na na na na)

Chorus

I just wanna praise you  
Let me take you to Jamaica girl (dont go) just dont go  
I hope these feelings are contagious  
Thank God everyday he made you girl (dont go) dont go  
My life would be incomplete babe  
If he took you from me baby (dont go) dont go  
No, no, nooo (umm hum)  
I just wanna praise you  
Let me take you to Jamaica girl (dont go) just dont go  
I hope these feelings are contagious  
Thank God everyday he made you girl (dont go) dont go  
My world would be incomplete babe  
If he took you from me baby (dont go) dont go  
No, no, nooo (umm hum)
