Until Now

Jules Shear

One more game
and though it's far away
I always searched
for one more game to play
but I was never home
until now

You were never more
than a name to me
Before I knew
what change could be
I was never home
until now

There was nothing left
that I could stand
So I bent down
a little lower
I used to think
that no one could
catch me then
but now
I'm slower

Everyone was
looking for
the rain to pour
nobody seemed to know
what they're
looking for
I was never home
until now

There was nothing left
that I could stand
So I bent down
a little lower
I used to think
that no one could
catch me then

but now
I'm slower

One more game
and though it's far away
I always searched
for one more game to play
but I was never home
until now
I was never home
until now
