

Arise Again

Soulfly

Lost in a ritual rage
I lost my normal behavior
Muthafucker, show your face
Hide on your invisible cage
Behind your fake name
Why don't you say that shit to my face
Arise again, arise again
People like you just fuel my hate
Arise again, arise again
Arise again, arise again
People like you just fuel my hate
Arise again, arise again
At war with you again
I don't think you understand
Muthafucker, I don't pretend
Fuck you and your friends
Fuck you and your trends
Can't you see we are not the same?
Arise again, arise again
People like you just fuel my hate
Arise again, arise again
Arise again, arise again
People like you just fuel my hate
Arise again, arise again
