

# Time Will Tell

Lani Hall

Will this moment, last, past morning  
Will the pieces gel  
And is that ticking clock, a warning  
Time Will Tell

Did I feel it  
Did you fake it  
Can we break this shell  
Can two people ever make it  
Time will tell

Just hold me  
While I hold you  
Don't let questions, break this spell  
You're here now and you're mine now  
And for us now, all is well

Doubting hearts can get too clever  
oh love me now while we're together  
If its meant to last forever  
Time will tell

Just hold me  
While I hold you  
Don't let questions, break this spell  
You're here now and you're mine now  
And for us now, all is well
