

Home Again

Supertramp

When is the time that a dream has gone wrong
When you're with me
When is a time when the blame went to you
Please forgive me
But the truth is, my friend, that the world isn't quite
As I thought it to be
Oh no, I wish I were back home again
Oh no, I wish I were back home again
Oh no, I wish I were back home again
La la la, I wish I were back home again
