

Radio

ZO2

Radio (ZO2)She could be anywhere
Voices flying through the air
Catching every word
As they fallI want her for myself
I know there's some one else
Uh, did you know
I was the one she loved
But now she just turns the volume upCan't let go
Cause she's in love with the radio
Now I know
She's turned on to another show
She's in love with the radioI tried to talk about
I dialed in but she tuned me out
Catching not a word
They'd just fallI took my broken heart
And made a record, that hit the chart
Now did ya know, now I'm the one she loves
But now I just turn the volume upCan't let go
Cause she's in love with the radio
Now I know
She's turned on to another show
She's in love with the radio(Break)Can't let go
Cause she's in love with the radio
Don't you know, she's turned onto another show
Now I know
She's in love with the radio
Don't you know
She's turned onto another show
Repeat 2xShe's in love with the radio
She's in love with the radio
She's in love with the radio
Oh, she's in love
