

# Punch In Punch Out

## Seven Mary Three

I wake up to beat the sun from her glory  
I'm only one cigarette away from mobility  
It's always punch in punch out  
Go to work and go back home There's only one chance left  
And I know, and I know  
Where she is waiting I wake up to beat the sun from her glory  
I'm only one cigarette away from mobility  
It's always punch in punch out  
Go to work and go back home There's only one chance left  
And I know where she is waiting Because there's three songs  
home and Alex is jawing  
There's only one chance left  
And I know what I'll do with it So I wake up to beat the sun from her glory  
I'm only one cigarette away from mobility It's always punch in punch out  
Go to work and go back home  
There's only one chance left  
And I know what I'll do with it It's always punch in punch out  
Go to work and go back home  
There's only one chance left  
And I know what I'll do with it Punch in punch out  
Punch in punch out  
Punch in punch out
