

# Velveteen

## Thumpers

Delux, sublime

Gigantic for all times and space

I wish for you the stars bow down

I wish for you their infinite crownIn Velveteen, I will surround

With Velveteen in your name

In Velveteen, I will surround

I'll keep this velvet in your name

I'll keep this velvet from the rainSo long, sleep well

Your purity speaks well as you lay

With all these flowers in your bed

With all these flowers you had left to give awayIn Velveteen, I will surround

With Velveteen in your name

In Velveteen, I will surround

I'll keep this velvet in your name

I'll keep this velvet from the rain
