

I Feel Mysterious Today (2006 Remastered Version)

Wire

Always cause for concern (always)
When you're feeling quite bright (bright)
And your filament burns
I feel mysterious today
Everything is humming loudly
I feel mysterious today
Everyone is coming this way Is it ever appealing
To stand on the ceiling? (watch out!)
Observe the tension grow (grow, grow, grow)
I feel mysterious today
Everything is humming loudly
I feel mysterious today
Everyone is coming this way Going walking abroad (walking)
Minus hat before dawn
Bats in profusion there
I feel mysterious today
Everything is humming loudly
I feel mysterious today
Everyone is coming my way Did you ever conceive
That you too can leave
Exactly when you like?
