

Soul Ride

Tiza Brown

You know the music brings out the kid in me, oo, oo Got me kickin' back feeling fancy free
Doesn't matter how bad I feel inside
When the music starts my soul takes a ride
We get so all bogged down in
This world of consumption
When we finally find what we need It's a revelation
The cure is fast and sure and it's free Been that for generations
Working overtime to find some joy A missed sensation
I thought so much I'm about to lose my mind Too much concentration
What I wouldn't give to be a kid
Give in to good vibrations
Hurry up
I'm headed nowhere
Hurry up
To where I don't
Hurry up
Til there's no time left to breath
