

What Girls Like About Boys

Clooney

What girls, what girls like about boys (4x)
What (2x), what girls, whatWe like the way you smile
We like it when you're shy
We like it when you laugh at yourself
When you don't have to try
We like it when you surf
We like to see your pecs
We like to make you sweat
And best of all we like...what?
What girls like about boysWhat girls, what girls like about boys (3)
What girls, what girls like
They like everything (we like everything)
Everything, we like (yeah)We like it when you show off
and we pretend not to watch
But of course we can't take our eyes off you
Cos we think you're so hotWe like the feeling of power
That we get when you shake
And when you get so cool
That you think you might break...what?What girls, what girls like about boys (3)
What girls, what girls like
They like everything (we like everything)
Everything, we likeYou can say what you like
That Girls are from Venus
And Boys are from Mars
But we know that they've seen us
Without makeup and still love us
So what's not to like'We like to hear you say you're sorry
After we have a fight
Because it means that we can kiss and make up
All day and all night.And We like the way you're clumsy
When you trying to help
We like how your fingers tremble
When you touch us... it's like nothing else...What girls, what girls like about boys (8x)
We like (what) everything
