

La La Lie (Garage Band Demo)

Jack's Mannequin

Guess what, I'm done writing you songs
You give up your job in the bedroom
The money's not fun when you're gone
So this is the first verse
It's not very long
But I'm ready to move on
Guess what, I'm done writing your book
And we got twisted around
But we're on the airway
It took electrical wire
Well I'm in the walls
In the room that I'm in now
And I said I got friends who (la la la la lie)
Will help me to pull through (la la la la lie)
The space that I can't get out
I'm coming back to my girl by July
Yeah, yeah, yeah, I said lullaby
So, guess what, I'm done drawing your pictures
I'm through with the day with the drink
In the park in the ride by the theater
Remember the movie?
Yeah, the scene was a sign
We made out through them meeting
Well I've got friends who (la la la la lie)
Will help me to pull through (la la la la lie)
The space that I can't get out
I'm coming back to my girl by July
Yeah, yeah, yeah, yeah
Guess what? I'm done writing you songs
I'm far too unstable to shadow
I doubt that my doctors were wrong
So wait by the palm tree, palm tree, palm tree
Well I've got friends who (la la la la lie)
Should help me pull through (la la la la lie)
The space that I can't get out
I'm coming back to my girl by July
La la lie, help me to pull through
La la lie
It's not a very long good bye
I'm coming back to, back to my girl
La la lie, back to my girl
It's not a very long good bye
I'm coming back to my girl by July
