Warhead

Secrets of the Moon

Why?
The king of lies is alive
Look around, look inside
Infidel
InfidelIt begins here
It ends now
The prince must pay
His head or the crownRob the poor
Slaughter the weak
Distort the law
Perfect deceitDo I need a gas mask?
(Should I get inoculated?)
Will this war last?
(Will we be incinerated?)False gods
Death squads
BlindThis is a catastrophe
Weapon systems activated
Puritans have invaded
This is a catastrophe
To protect against the threatOrder must be kept
Order must be kept
Order must be keptDo I need a gas mask?
(Should I get inoculated?)
Will this war last?
(Will we be incinerated?)False gods
Death squads
BlindThe elephants march to war
Concede
Conform
Concede
ConformDeny the big lie
My tribe
Join meAn alliance of defiance
In the warhead
All are welcome hereGive me your tired
Give me your sick
Give me indulgence and decadenceGive me your tired
Give me your sick
Give me indulgence and decadenceHe lied, they died

Keep the peasants terrified
He lied, they died
Keep the peasants terrifiedThis is a catastrophe
You must lead, if they get me
On my commandBreak free
Break free
Break free
Break free
