Devil

Ohgr

sick i've lit the bridge on fire exposed the nerves will twitch
feed the needy x desire poke it with a stick
i need assertion devils in my eye won't let up any motion
i need a surgeon devils inside won't cut me any slack
who cares about you/i thought i did
who cares about you
fingers twitch and blisters stalk her removes itself from it
dream the greedy motivators sleep it off again
i need assertion devils in my eye won't let up any motion
i need a surgeon devils inside won't cut me any slack
distant wreaths surreal retired in bed forever sleeps
secrets feed the next desire
desires not to be
