

# Devil

## Ohgr

sick i've lit the bridge on fire exposed the nerves will twitch  
feed the needy x desire poke it with a stick  
i need assertion devils in my eye won't let up any motion  
i need a surgeon devils inside won't cut me any slack  
who cares about you/i thought i did  
who cares about you  
fingers twitch and blisters stalk her removes itself from it  
dream the greedy motivators sleep it off again  
i need assertion devils in my eye won't let up any motion  
i need a surgeon devils inside won't cut me any slack  
distant wreaths surreal retired in bed forever sleeps  
secrets feed the next desire  
desires not to be
