

Calling God

Jann Arden

Every leaf on every tree
And every drop of water in the sea
Every grain of weathered sand
That smashes itself onto dry land
Every stone and every petal
Everything that's elemental
You are never gone
Calling God
Calling out
Folded hands and bended knees
I pray for life's catastrophes
Oh Hallelujah, save us all
Rock of ages fire fall
Holy-roller roll away
Send salvation, send a saint
I am not alone
Calling God
Calling out
Calling God
Calling out
Every leaf on every tree
And every drop of water in the sea
Every grain of weathered sand
That smashes itself onto dry land
Every stone and every petal
Everything that's elemental
Every tear that hits the ground
Everything that's lost and never found
Every hill dreams of a mountain
Every heart a bleeding fountain
Every wish and every prayer
That always seems to disappear
Every leaf on every tree
And every drop of water in the sea
Every drop of water in the sea
