

# Maybe

## King

There I was waiting for a chance  
Hoping that you'll understand the things  
I wanna say  
As my love stronger than before  
I wanna see you more and more  
But you close the door  
Why don't you try  
To open up your hearth  
I would take so much of your time  
Maybe it's wrong to say please love me too  
Coz I know you never do  
Somebody else is waiting there inside for you..  
Maybe it's wrong to love you more each day  
Coz I know he's here to stay  
But I know to whom you should belong  
I believe what you said to me  
We should set each other free  
The time you wanted to be ..  
But my love is stronger than before  
I want to see you more and more but you close the door  
Why don't you try  
To open up your hearth  
I would take so much of your time..
