

# Fragments of Resolution

## Monstrosity

Searching through this violent haze  
Contracted by illusions  
This mesmerizing dream  
To find fragments of resolutionThe eyes of eternity  
Focus on the myriad forms  
As the minds of the conscious crumble  
To the weakness their truth must conformFragments... of resolution  
Fragments... of resolutionBreathing in this misery  
Destroying absolution  
Victim of a hidden past  
Resounding with execution
