Stronger

Pitchshifter

You may be the stronger now
But my time will come around
I said you may be the stronger now
But my time is coming aroundYeah taste it
Break it
I know you hate itI won't be much longer now
You hold tight I'm coming round
I said I won't I much longer now
You hold tight I'm coming roundYeah taste it
Brake it
I know you hate it
Yeah take it
Make it
I know you hate itYou can't keep it a secret
You can keep it down
You know that no-one really cares until it comes aroundYou can't keep it a secret
You can keep it down
You know that no-one really cares until it comes around
Until it comes aroundYou may the stronger, you may be the stronger now
You may the stronger, you may be the stronger nowYeah taste it
Brake it
I know you hate it
Yeah take it
Make it
I know you hate itYou can't keep it a secret
You can keep it down
You know that no-one really cares until it comes aroundYou can't keep it a secret
You can keep it down
You know that no-one really cares until it comes around
Until it comes around
