

I'll Be Your Baby Tonight

[Linda Ronstadt](#)

Close your eyes, close the door
You don't have to worry anymore
I'll be your baby tonight
Shut the light, shut the shade
You don't have to be afraid
I'll be your baby tonight
Well, that mockingbird is gonna sail away
We're gonna forget it
Well, that big fat moon is gonna shine like a spoon
But we're gonna let it, you won't regret it
Kick your shoes off, do not fear
Bring that bottle over here
I'll be your baby tonight
Well, that mockingbird is gonna sail away
We're gonna forget it
Well, that big fat moon is gonna shine like a spoon
But we're gonna let it, you won't regret it
Kick your shoes off, do not fear
Bring that bottle over here
I'll be your baby tonight
