

# Go Upstairs

## Soul Mekanik

Go upstairs, take off your clothes  
I've got something for you tonight  
Lit the candles, put down the shades  
    Gonna make you feel alright  
    Baby, I've been burning up  
        Longin' for you within  
    It seems like it's been so long  
    I couldn't wait to see you again  
        You had the longest day  
For whatever reason, I, I understand  
    So let's kiss and let's hug  
    And let's touch like only we can  
    Go upstairs, take off your clothes  
    I've got something for you tonight  
    Lit the candles, put down the shades  
    Gonna make you feel alright  
    There'll be no interruptions  
We've got the whole place to ourselves  
And if there's something's on your mind  
    Want you to tell me and no one else  
        'Cause right now  
I wanna be the only person on your mind  
    So let's kiss and let's hug  
    And let's touch like only we can, baby  
    Go upstairs, take off your clothes  
    I've got something for you tonight  
    Lit the candles, put down the shades  
    Gonna make you feel alright  
    Go upstairs, take off your clothes  
    I've got something for you tonight  
    Lit the candles, put down the shades  
    Gonna make you feel alright  
    'Cause right now  
I wanna be the only person on your mind  
    So let's kiss and let's hug  
    And let's touch like only we can  
    Go upstairs, take off your clothes  
    I've got something for you tonight  
    Lit the candles, put down the shades

Gonna make you feel alright  
Go upstairs, take off your clothes  
I've got something for you tonight  
Lit the candles, put down the shades  
Gonna make you feel alright  
Yeah, yeah, yeah  
Yeah, yeah, yeah  
Yeah, yeah, yeah  
Go upstairs, yeah, yeah, yeah  
Yeah, yeah, yeah  
Yeah, yeah, yeah  
Go upstairs, take off your clothes  
I've got something for you tonight  
Lit the candles, put down the shades  
Gonna make you feel alright  
Go upstairs, take off your clothes  
I've got something for you tonight
