Flags

Saybia

Nothing seems to work behind these walls
Communication is breaking down
Empathy is nothing but a myth
So tell me who you really are
Flash
And our world is no more
From coast to coast
From flag to flag
Mirrors on the wall don't tell the truth
I try to look the other way
Reflect myself in eyes of those I love
They tell me who I really am

Flash
And our world is no more
From coast to coast
From flag to flag
From coast to coast
We wave our flag
Then it occurred to me
We're standing close now, to breaking up
From coast to coast
We wave our flags for nothing
