Wish You Dead

Curve

You can dig that knife
Deep down inside you
Just don't say never again
It's the only thing that
Stops me going crazyI know you want it
'Cause you never do
And that's the nicest
Thing about youSo uncaring so assuming
Back-stabbing, all-consuming
Don't step over my head
Don't step over my headYou can filter your poison into my sleep
But I know it's my heart
That you could never reachI know you won't
'Cause tools you choose
And that's the ugliest thing about youSo uncaring and so assuming
Back-stabbing, all-consuming
I've told a thousand lies through me
I've sold a thousand lies to youDon't step over my line
Don't step over my time
Don't step over my head'Cause I will wish you dead
'Cause I will wish you dead
'Cause I will wish you dead'Cause I will wish you dead
'Cause I will wish you dead
'Cause I will wish you dead
'Cause I will wish you dead
