

# Love That Woman (Alternative Original Mix)

## Fleetwood Mac

The way you walk - it drives me mad  
Now, the way you talk - it makes me glad  
Love that woman - yes, you're everything to me  
Whoa, 'cause you're a friend and lover Whoa, just as sweet as a woman should be  
She knows how to work - and she knows how to play  
She knows how to keep me happy - everyday  
Love that woman, yes, I need you by my side Whoa, 'cause you got a way baby  
Whoa, a way that keeps me satisfied  
When a no good man - tries to give her a line  
She tells him quick - whoa, she's all mine. Love that woman, yes, your everything to me  
Whoa, 'cause you're a friend and lover  
Just as sweet as good as a woman should be
