It's for Life

Agnostic Front

You want to make a commitment?
It's for lifeIf you want to stand for something
You better stand tall and proud
Don't try to walk the fence or play both sides
Be ready to fight when they look you in the eyeYou want to make a commitment
A commitment, it's for life
Don't try to make a commitment unless it's for lifeEveryone's got a flag to wave
Until they are called on their beliefs
All I'm saying is you better back it up
When you come face to face with realityWhen I make a commitment
I stay true to what is right
I will never make a commitment unless it's for lifeYou want to make a commitment
A commitment, it's for life
I will never make a commitment unless it's for life
