Remember Boys

Cole Swindell

Remember boys, never let a lady open the door
And be there with a lighter if she wants a smoke
Remember boys, never let her go to sleep crying
When she tells you about her dreams you gotta fill 'em up with hope'Cause I don't wanna be a one night boy
And I don't want to be an ain't right boy
I don't wanna be a had a ball, waited out no call kind of love song boy
I don't wanna be a regret or the one that she forgets
I don't wanna be a June 'til September
I wanna be one those remember boysRemember boys, always open her beer first
And tell her that you love her, even when she makes you mad
And remember boys, no matter what you make it work
You want her need and her and fight to keep her
Let her know you know what you haveI don't wanna be a one night boy
And I don't want to be an ain't right boy
I don't wanna be a had a ball, waited out no call kind of love song boy
I don't wanna be a regret or the one that she forgets
I don't wanna be a June 'til September
I wanna be one those remember boysNo I don't wanna be a late night boy
I don't wanna be a heart break boy
I don't wanna be a can't trust him with your love, kind of loser boy
I don't wanna be a regret
Or the one she forgets
No, I don't wanna be a June 'til September
I wanna be one those remember boysThat's rightI wanna be one of those remember boys
