

# Speck Of Gold

## Afterlife

Hope is all that we have

With each birth, every tear, we have hope, we have hope

Speck of gold in your heart

Everyone, everyone

Speck of gold in your heart

Every sun, everyone

Speck of gold

Cold, cold ways, I won't

Hold you heart to this light

One and all, one and all

Speck of gold

Speck of gold, that we just unfolded

Love your heart, love your heart

Speck of gold, everyone hold our sun

Wanna live

Speck of gold

Speck of dust on our sun

Shade our world, shade our world

Speck of dust on everyone

Save our sun, save our world

Speck of dust on our sun

Shade our world, shade our world

Speck of dust on everyone

Save our sun, save our world
