

# Ac's Alien Nation

Aaron Carter

A.C., A.C.  
Put your hands up  
Put your hands up  
Come on now  
Shoulda known something was up when I got up  
Something felt funny to me from the get up  
Jumped up out of the bed with my head up  
Guess who was staring at me? An ET or an alien  
But he said his name was Steve  
And he didn't look like what I thought he would be  
He said "Aaron, will you help me please  
Get your space suit, now come with me"  
So we hoped up, in the space truck  
It was all combed out with the system up  
And I thought we were going to Mars, we made a left at the dipper  
Never figured that we'd be here with a space majiggy  
We got there and I read a sign, it said  
"Welcome A.C., it's about time  
Can you show us? Can you help us?  
To dance tonight? 'Cause we have no rhythm  
And we're running outta time"  
Roll up to the rock where there's a universe of rhythm  
And the beat don't stop in A.C.'s Alien Nation  
Everyone is a cosmic freak and we only have one mission  
Gotta move as one in A.C.'s Alien Nation  
Listen up, here's what you got to do  
You take one step up, don't try to take two  
Make sure that you bump your fists like this  
Nod like this and rock like this  
'Cause everybody gotta learn this way  
To a be together, stay together, know we gonna innovate  
Moonwalk, star drop, a universal big top  
Circus notice and you gotta know this  
It really doesn't matter, if you're short or tall  
  
Green or blue, fat or bald  
'Cause I came with a groove and I'm proving it all  
And around these parts we don't take no show  
With the unity soon to be in the streets

You can see with your own eyes, how far we've come  
'Cause we didn't have rhythm, now we've got some  
It's just another day in the A.C. Nation  
Roll up to the rock where there's a universe of rhythm  
And the beat don't stop in A.C.'s Alien Nation  
Everyone is a cosmic freak and we only have one mission  
Gotta move as one in A.C.'s Alien Nation  
You say you wanna dance  
Well, here's your chance  
Uh, uh, break it down, we gonna break it on down  
Right, right to left  
Right, right to left  
Now, up and down and side to side  
C'mon, what? We're gonna bounce like this  
What? What? We gonna pump them fists, what?  
A.C. baby, A.C. baby, that's where we at  
C'mon, here we go, drop it down  
4-3-2-1  
Drop it down  
Roll up to the rock where there's a universe of rhythm  
And the beat don't stop in A.C.'s Alien Nation  
Roll up to the rock where there's a universe of rhythm  
And the beat don't stop in A.C.'s Alien Nation  
Roll up to the rock where there's a universe of rhythm  
And the beat don't stop in A.C.'s Alien Nation  
Everyone is a cosmic freak and we only have one mission  
Gotta move as one in A.C.'s Alien Nation  
Roll up to the rock where there's a universe of rhythm  
And the beat don't stop in A.C.'s Alien Nation
