

Alive

Namie Amuro

Shadows on the moon
Mirror on my heart
Shattered broken glass
Cut my world apart
Rescue me my lover
Kiss me back to life
Save me when the sun goes down
Cause I'm lonely tonight I need you loving me
I need you loving me
I need you loving me
To make me feel alive Feel, feel, feel
To make me
Feel, feel, feel
To make me
Feel, feel, feel
To make me feel alive To make me feel alive Colour in the grey
See the night burn through
Lying here awake
Waiting up for you
Rescue me my lover
Kiss me back to life
Save me when the sun goes down
Cause I'm lonely tonight I need you loving me
I need you loving me
I need you loving me
To make me feel alive Feel, feel, feel
To make me
Feel, feel, feel
To make me
Feel, feel, feel
To make me feel alive Shadows on the moon
Mirror on my heart
Shattered broken glass
Cut my world apart I need you loving me
I need you loving me
I need you loving me
To make me feel alive Feel, feel, feel
To make me
Feel, feel, feel

To make me
Feel, feel, feel
To make me feel alive Feel, feel, feel
Feel, feel, feel
Feel, feel, feel
To make me feel alive
