

Respect

Jagged Edge

Ohh, ohh, whoa, ohh

Ohh, ohh, whoa, ohh

Ooh, ooh, ooh

Ooh, ooh, ooh

Ohh, ohh, whoa, ohh

Ohh, ohh, whoa, ohh I respect a man raisin' his kids all on his own

I respect a man who makes sure he takes care of home

You gotta respect a man with good judgement

'Cuz I'll be damned if someones takin' care of my kids

And I respect a man who treats his woman like a queen

I know you're not perfect, you ain't gonna be so mean

No matter how strong she is for a woman

A man should never attempt to lay his hands on her There's more to life than what happens on your block

Let's treat your women right and hold 'em at the top

Gotta raise these kids and teach 'em, never, don't ya stop

You ain't no man to me if you let your family starve, oh, oh Got no respect for them dudes that hit they women
and

Got no respect for the fools that leave they children

I just wanna take care of my family

Got no respect if you ain't trying to do the right thing

Got no respect for them dudes that hit they women and

Got no respect for the fools that leave they children

I just wanna take care of my family

Got no respect if you ain't trying to do the right thing I respect the type of girl that tries to love a man

With many flaws and broken laws but still he stands

The kinda girl that turns a boy into a man

The kinda girl who turns a flop into a plan

No respect for those who walk through life just askin' you

What you can do for them but still they hate on you

It don't take no man to make that baby

But yes, it takes a man to raise that baby There's more to life than what happens on your block

Let's treat your women right and hold 'em at the top

Gotta raise these kids and teach 'em, never, don't ya stop

You ain't no man to me if you let your family starve, oh oh Got no respect for them dudes that hit they women
and

Got no respect for the fools that leave they children

I just wanna take care of my family

Got no respect if you ain't trying to do the right thing

Got no respect for them dudes that hit they women and

Got no respect for the fools that leave they children
I just wanna take care of my family
Got no respect if you ain't trying to do the right thingFellas, we gotta make a change
In the way that we treat our women and our children, yes we do
Hope that there's a better day
Put your hands to the sky
If you wanna change, need a change
See all that, but you don't, you don't really mean a thing
If you can't show some love to the ones connected by your blood
'Cuz in the end all that matters is your wife and the kids, oh, oh, yeahGot no respect for them dudes that hit they
women and
Got no respect for the fools that leave they children
I just wanna take care of my family
Got no respect if you ain't trying to do the right thing
Got no respect for them dudes that hit they women and
Got no respect for the fools that leave they children
I just wanna take care of my family
Got no respect if you ain't trying to do the right thingGot no respect for them dudes that hit they women and
Got no respect for the fools that leave they children
I just wanna take care of my family
Got no respect if you ain't trying to do the right thing
Got no respect for the fools that leave they children
I just wanna take care of my family
Got no respect if you ain't trying to do the right thing
Got no respect for the fools that leave they children
I just wanna take care of my family
Got no respect if you ain't trying to do the right thing
Got no respect for the fools that leave they children
I just wanna take care of my family
Got no respect if you ain't trying to do the right thing
