

# I'll Never Go

Erik Santos

You would always ask me  
Those words I say  
And telling me what it means to me  
Every single day  
You always act this way  
For how many times  
I told you I love you....  
For this is all I know.....

Come to me and hold me  
And you will see the love I give  
You still hold the key  
Every single day  
You always act this way...  
For how many times  
I told you  
I love you  
For this is all I know....

(Chorus)  
I'll never go far away from you  
Even the sky will tell you  
That I need you so  
For this is all I know  
I'll never go far away from you.....

Come to me and hold me  
And you will see the love I give  
You still hold the key  
Every single day  
You always act this way...  
For how many times  
I told you  
I love you  
For this is all I know....

(Repeat Chorus 3x)

---
